Did you know that "more than 85 research studies conducted over the past 30 years have proven that students do better when parents are involved? Grades are higher. Test scores improve. Attendance increases." ([PTA Website](#))

In high school it may seem like we should be more hands off, but this is one of the most important times to stay connected to your student, your school and the resources available to help them launch into adulthood. I just read another [study](#) in England of 15,500 young ladies, 13-14 years old, that said assertive mothers with high expectations raised more successful adults. (Permission to keep nagging!) So what, you might ask? Well joining the Prospect PTSA is a great way to stay involved and build community around your teen and our high school so that we can raise more successful adults! We have many

different membership levels to suit your needs and every membership will benefit our students through our programs, teacher support and advocating for education at the local and state level. So far we have 77 memberships, which is a GREAT start, but with a school size of 1400 students I know we can build a much larger and supportive community than that. If you ever joined your Home and School Club or PTO at your elementary or middle school please join the Prospect PTSA, we are the same support system and provide the same benefits. You don't have to come to anything or volunteer to be a member, but we hope you will see such great things coming from us that you won't be able to help yourself. ;-)

All members who join at the Silver level or higher will receive a free "Building the Pride" PTSA T-Shirt and EVERY membership will help build more successful students and adults!
